

# STEAM WAND ALLERGEN CONTROL

Always follow this process when changing milk types:

1. PURGE steam wand thoroughly BEFORE use
2. USE correct colour-coded jug (no exceptions)
3. STEAM milk as required
4. WIPE wand immediately with correct colour-coded cloth
5. PURGE again AFTER cleaning
6. CHECK wand is visibly clean before next use

⚠ Almond milk = HIGH RISK (use RED jug & RED cloth only)

⚠ Never mix jugs or cloths between milk types

⚠ Steam kills bacteria but NOT allergens – cleaning is essential

If customer declares ALLERGY:

- Follow full cleaning process
- Use correct equipment
- Inform: drinks are made on shared equipment
- Ask manager if unsure
